

ANIMAL EMERGENCIES THAT SHOULD RECEIVE VETERINARY CARE

- Severe vomiting or diarrhea – more than 2 episodes in a 24-hour period
- Refusal to drink for 24 hours or more
- Choking, difficulty breathing or nonstop coughing and gagging
- Bleeding from nose, mouth, rectum, coughing up blood, or blood in urine
- Severe bleeding or bleeding that doesn't stop within 5 minutes
- Inability to urinate or pass feces (stool), or obvious pain associated with urinating or passing stool
- Injuries to your pet's eye(s)
- Seizures and/or staggering
- Unconsciousness
- Open wounds or lacerations
- Fractured bones, severe lameness or inability to move leg(s)
- Obvious signs of pain or extreme anxiety
- Heat stress or heatstroke
- You suspect or know your pet has eaten something poisonous

Common Pet Poisons Include

- Antifreeze
- Xylitol
- Chocolate
- Rodent poison
- Human Medications
- Grapes
- Raisins
- Lilies

ANY concern about your pet's health warrants, at minimum, a call to your veterinarian.

WE'RE ALWAYS HERE FOR YOU!

COMMUNICATION WITH YOUR PRIMARY VETERINARIAN

A detailed report will be provided to your primary veterinarian should your pet be seen for emergency care or a visit with a specialist at our hospital. We encourage you to follow-up with your primary veterinarian for continued care, and we work hard to communicate with them so that they can take over where we left off. Our life-saving equipment allows our experienced and compassionate team to assist your primary veterinarian with treatment day or night.

EMERGENCY

Mount Laurel Animal Hospital & Emergency Service, a Penn Vet affiliate, is available for emergencies 24 hours a day, 7 days a week, year-round. Our staff of over 100 team members is highly trained, utilizing the most cutting-edge technology to best diagnose your pet.

EMERGENCY & DIAGNOSTIC PROCEDURES

We are fully staffed and equipped to provide the following diagnostic procedures and treatments as needed:

- Endoscopy and Foreign Body Removal
- Electrocardiogram Monitoring (ECG)
- Ultrasound and Digital Radiographs
- In-House Diagnostic Blood Analysis
- Abdominal & Thoracic Surgery
- Blood Pressure Monitoring
- Intravenous Fluid Therapy
- Cardiac Resuscitation
- Emergency Surgery
- Nutritional Support
- Blood Transfusions
- Pain Management
- Oxygen Therapy
- Echocardiogram
- Ventilation

TRANSPORT SERVICE

We offer transport to and from our hospital, based on availability.

SPECIALTY CARE

We are fortunate to have our emergency staff working side-by-side with our specialty care doctors. This allows medical treatment to continue stress-free as all of our services are housed under one roof.

ACUPUNCTURE

- Dry Needle
- Aquapuncture
- Laser-Acupuncture
- Electro-Acupuncture

Acupuncture has long been one of the most common types of holistic medicine for pets and humans alike, relieving back pain, arthritis, muscle pain and more.
